

MESSAGE FROM THE CONFERENCE CHAIRPERSON - SILVERAGE 2026

It is my great pleasure to welcome you to the 7th International Conference on Gerontology & Geriatric Medicine (SilverAge 2026), to be held in Bali, Indonesia. On behalf of the organising committee, I warmly welcome all participants, presenters, distinguished keynote speakers, researchers, practitioners, students, and colleagues joining us both in person and virtually.

Population ageing is one of the defining global developments of our time. As people live longer, our collective responsibility extends beyond increasing longevity to ensuring that additional years of life are lived with health, dignity, independence, social connectedness, and a good quality of life. Achieving this requires collaboration across gerontology, geriatrics, psychology, public health, social care, technology, policy, and the wider community.

The theme of SilverAge 2026, “Healthy Ageing for All: Innovation, Equity, and Integrated Geriatric Care,” reflects this important responsibility. The theme reminds us that advances in healthy ageing must not only be innovative, but also accessible, equitable, person centred, and responsive to the diverse needs of older people.

SilverAge 2026 provides an international platform for sharing research findings, clinical experiences, innovative practices, and emerging perspectives across a wide range of areas, including healthy ageing and longevity, dementia and cognitive ageing, mental health and social connectedness, multimorbidity, digital health and artificial intelligence, integrated care, age-friendly environments, and public policy.

I hope that the presentations, discussions, and interactions throughout this conference will stimulate new ideas, strengthen international collaborations, and contribute to translating knowledge into meaningful improvements in the lives of older people, their families, and communities.

I sincerely thank our keynote speakers, presenters, scientific and organising committees, partners, and participants for their valuable contributions to SilverAge 2026.

I wish you all a stimulating, productive, and memorable conference, and I look forward to welcoming you to Bali, Indonesia.

Ponnusamy Subramaniam, PhD, CPsychol, AFBPsS
(Head of Program & Senior Lecturer / Consultant Clinical Psychologist,
Clinical Psychology and Behavioural Health Program/ Centre for Healthy Ageing and Wellness
(H-CARE), Universiti Kebangsaan Malaysia, Kuala Lumpur, Malaysia)

MESSAGE FROM THE CONFERENCE CONVENER – SILVERAGE 2026

Dear Distinguished Delegates

It is with great pleasure that I welcome you to the 7th International Conference on Gerontology and Geriatrics Medicine (SilverAge 2026), taking place in Bali, Indonesia.

On behalf of the International Centre for Research (ICR), it is an honour to welcome you to this international forum dedicated to advancing research and innovation in gerontology, geriatric medicine, and healthy ageing. Guided by this year's theme, "Healthy Ageing for All: Innovation, Equity, and Integrated Geriatric Care," the conference highlights the importance of inclusive and integrated approaches to supporting ageing populations.

As the global population continues to age, ensuring access to quality healthcare, promoting independence, and improving the well-being of older adults have become increasingly important priorities. SilverAge 2026 brings together researchers, healthcare professionals, policymakers, and practitioners to share knowledge, explore innovative solutions, and strengthen collaborations that contribute to healthier, more inclusive, and age-friendly societies.

I extend my sincere appreciation to iConferences, the organizing body, for its commitment to fostering international academic collaboration and knowledge exchange.

I encourage you to actively engage in the keynote sessions, research presentations, discussions, and networking opportunities. May these interactions inspire meaningful partnerships and lasting contributions to the advancement of gerontology and geriatric care.

Thank you for joining us at SilverAge 2026. I wish you a productive, insightful, and memorable conference experience.

Warm regards,
Thulakshana Liyanage
Founder & Non Executive Director
International Centre for Research (ICR), USA

Founder & Director
iConferences (Pvt) Ltd, Sri Lanka

MESSAGE FROM THE ACADEMIC PARTNER SILVERAGE 2026

International Institute on Ageing
United Nations - Malta

It is a great pleasure and privilege to welcome you to the SilverAge 7th International Conference on Gerontology and Geriatric Medicine, taking place on 22-23 October 2026 in Bali, Indonesia, in a hybrid format. Organised by I-Conferences, in collaboration with the International Institute on Ageing United Nations-Malta (INIA) and other esteemed partners, this conference brings together professionals, academics, researchers, policymakers, practitioners and advocates committed to improving the lives of older persons across the world.

The theme of this year's conference, Healthy Ageing for All: Innovation, Equity and Integrated Geriatric Care, is both timely and significant. Population ageing is one of the defining demographic developments of our time. As people live longer, societies are presented with important opportunities to harness the experience, knowledge and contributions of older persons, while also addressing the challenges associated with longevity, chronic disease, disability, social isolation and unequal access to health and social services.

Healthy ageing must therefore be understood not simply as the absence of disease, but as an approach that enables older people to maintain their functional ability, dignity, independence and quality of life. Achieving this requires health and social care systems that are person-centred, responsive and integrated, while recognising that the experience of ageing is shaped by social, economic, cultural and environmental circumstances.

Innovation has an important role to play in this transformation. Advances in medicine, digital health, assistive technologies, rehabilitation, long-term care and data-driven approaches can contribute significantly to healthier and more independent ageing. However, innovation must be accompanied by equity. New technologies, services and models of care should be accessible and affordable to older people regardless of their geographical location, socioeconomic circumstances, gender or other factors that may influence their opportunities for healthy ageing.

Integrated geriatric care is equally essential. Older persons frequently experience multiple and interacting health and social needs that cannot be effectively addressed through fragmented services. Collaboration among healthcare professionals, social services, families, communities and older people themselves is fundamental to ensuring continuity of care and promoting wellbeing across the life course.

The international nature of this conference provides a valuable opportunity to share knowledge and experiences across countries and disciplines. The exchange of research findings, good practices, innovative approaches and policy perspectives can help strengthen our collective capacity to respond to the opportunities and challenges presented by population ageing.

As the International Institute on Ageing United Nations-Malta, we are particularly pleased to support a platform that promotes international cooperation and knowledge exchange in the field of ageing. Conferences such as SilverAge remind us that healthy ageing is a shared responsibility and that meaningful progress requires collaboration across generations, sectors and borders.

I wish all participants a fruitful and inspiring conference, and I hope that the discussions and connections established in Bali will contribute to practical actions that advance healthy ageing for all, ensuring that older persons everywhere can age with dignity, security, inclusion and purpose.

Rosette Farrugia-Bonello
Deputy Director
International Institute on Ageing United Nations-Malta (INIA)

TECHNICAL PROGRAM

DAY 01 – THURSDAY, 22ND OCTOBER 2026

08.30 – 09.00

Conference Registration

INAUGURATION SESSION

Thursday, October 22ND 2026 | 09.00 WITA to 09.15 WITA | Intaran Room

09.00 – 09.05

Welcome Address by the Conference Convener

Ms. Thulakshana Dilrukshi
(Director, iConferences, Sri Lanka)

09.05 – 09.10

Welcome Address by the Conference Chairperson

Assoc. Prof. Dr. Ponnusamy Subramaniam

(Head of Program & Senior Lecturer / Consultant Clinical Psychologist,
Clinical Psychology and Behavioural Health Program/ Centre for
Healthy Ageing and Wellness (H-CARE), Universiti Kebangsaan
Malaysia, Kuala Lumpur, Malaysia)

09.10 – 09.15

Conference Photograph

KEYNOTE FORUM

Thursday, October 22ND 2026 | 09.15 WITA to 10.15 WITA | Intaran Room

09.15 – 09.45

Dr. Mustafa Atee

(Research and Practice Lead - Team Leader, Hammond Innovations Honorary Lecturer, The University of Sydney, Adjunct Senior Lecturer, Edith Cowan University, Adjunct Senior Lecturer, Curtin University, Australia)

"Dementia Care in the Era of AI: A Focus on Literacy"

Dr Mustafa Atee is a Research and Practice Lead (Team Leader) at Hammond Innovations with adjunct academic positions at Curtin School of Diagnostic and Therapeutic Sciences, Edith Cowan's School of Nursing and Midwifery (Centre for Research in Aged Care) and Sydney Pharmacy School. Dr Atee is a Fellow of Australian and New Zealand College of Advanced Pharmacy (FANZCAP; GeriMed, Lead&Mgmt); and Fellow of Australasian Institute of Digital Health (FAIDH). His PhD led to the development and commercialisation of PainChek®, a world's first FDA-cleared (De Novo) digital medical device that combines AI-driven facial recognition analysis with user-guided features and cloud computing to identify pain in non-verbal adults, including those living with dementia. The device is currently in use in more than 2,000 aged care homes in Australia, NZ, UK, USA and Canada with over 20M digital pain assessments completed for ~200,000 residents by over 45,000 staff trained globally. Dr Atee has published widely on dementia, geriatrics and aged care.

09.45 – 10.10

Morning Refreshments

10.10 – 10.40

Dr. Nidhi Mishra

(Associate Professor, HOD Applied Psychology GITAM School of Humanities and Social Sciences Visakhapatnam)

"Beyond Digital Inclusion: Promoting Safe and Healthy Ageing in a Digital World"

Dr. Nidhi Mishra is an Associate Professor and Head of the Department of Applied Psychology at GITAM (Deemed to be University), Visakhapatnam. She holds a PhD in Geropsychology from the University of Allahabad. She is an editorial board member of the European Journal of Mental Health and part of the international advisory team of the Miroir Foundation, Canada. Her expertise in psycho-social gerontology has earned her advisory roles with Life Circle Health Services, Hyderabad, and AI Snehanjali, Mumbai.

Dr. Mishra has been actively involved in national and international research projects addressing diverse psycho-social issues, including health and well-being, environmental concerns, identity and collective experiences, the lived realities of marginalized groups, ageing, and inclusive education. She has extensive experience in psycho-social gerontology, bridging academic research and social impact.

Notably, Dr. Mishra contributed to the United Nations Population Fund (UNFPA) project on building a knowledge base on ageing in India. In 2013, she represented India at the United Nations International Programme on Policy Formulation, Planning, Implementation, and Monitoring of the Madrid International Plan of Action on Ageing held in Malta. Additionally, she founded and managed Senior Express, an online initiative dedicated to promoting active ageing in India.

Healthy Ageing, Clinical Care & Health Systems

Thursday, October 22nd 2026 | 10.45 WITA to 11.45 WITA | Intaran Room

Chaired by Dr. Ponnusamy Subramaniam

(Centre for Healthy Ageing and Wellness (H-CARE), Universiti Kebangsaan Malaysia, Kuala Lumpur, Malaysia)

TECHNICAL SESSION 01

10.45 – 11.00 A1

In-Person

Pimprapa Yodtomorn

(Ibaraki Christian University, Japan)

"How Long do Thai People Expect to Live? :Associations between Subjective Survival Expectations and Life Satisfaction"

11.00 – 11.15 A2

In-Person

Dr. Anand P Ambali

(Department of Geriatrics, BLDE (DEEMED TO BE UNIVERSITY), Shri B M Patil Medical College Hospital and Research Centre Vijayapura, Karnataka IndiaKarnataka, India)

"Association of Nutritional Status with Outcome among Older Patients Admitted with Respiratory Diseases in a Critical Care Unit"

11.15 – 11.30 A3

Virtual

Yew Wen Chieng

(Hull University Teaching Hospital NHS Trust, Malaysia)

"Enhancing Osteoporosis Risk Stratification and Vitamin D Optimisation in Fragility Fracture Admissions: A QI Study"

11.30 – 11.45 A4

In-Person

Dr. Parmeshwar Kumar

(All India Institute of Medical Sciences, New Delhi, India)

"Concurrent Manpower Planning for a National Geriatric Tertiary Teaching Hospital from India: A Norm-Based Policy Analysis"

KEYNOTE FORUM

Thursday, October 22ND 2026 | 11.45 WITA to 12.15 WITA | Intaran Room

11.45 – 12.15

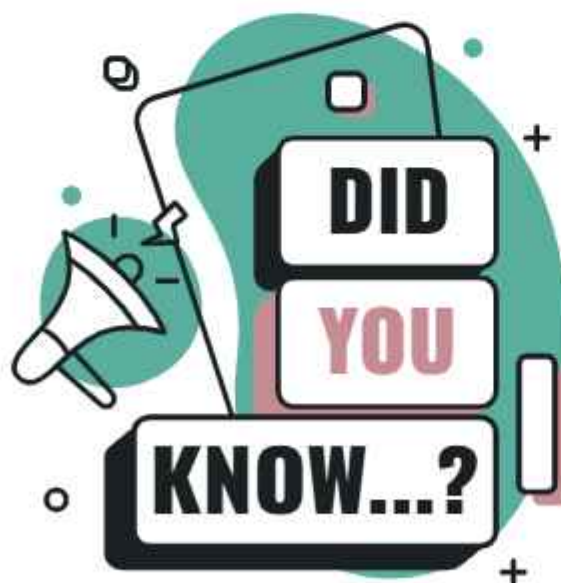

Dr. Vijaykumar S Harbishettar

(Assistant Professor, Geriatric Unit, Department of Psychiatry, NIMHANS, Bengaluru, India)

"Digital Resource Platform for Elderly Wellness Awareness"

Dr. Harbishettar has made significant contributions to clinical psychiatry, academic research, teaching, and public mental health. He has authored approximately 55 scientific publications, including 35 PubMed-indexed papers, with 27 PubMed-indexed publications appearing over the past decade. His research has received substantial academic recognition, with an h-index of 15 and approximately 1,400 citations. He also serves as Editor-in-Chief of the Journal of Psychiatry Spectrum and supervises DM Geriatric Psychiatry, MD Psychiatry, and Fellowship trainees. His research and programme experience spans major collaborative mental-health initiatives, including the Centre for Brain and Mind supported by Rohini Nilekani Philanthropies, the NIMHANS-AHT Comprehensive Mental-Health Action Program for Rural Communities, and ICMR-funded research on cognitive behavioural interventions, sleep, metabolic outcomes, and obstructive sleep apnoea. He has also contributed to the Sense-Cog project at the University of Manchester and led research on healthy ageing and public mental health.

“
Longer life can mean new beginnings.
WHO points out that additional years of life can provide opportunities for further education, a new career or finally pursuing a long-neglected passion.”

Poster Presentation & Discussion

Thursday, October 22nd 2026 | 12.15 WITA to 12.35 WITA | Intaran Room

Chaired by Dr. Ponnusamy Subramaniam

(Centre for Healthy Ageing and Wellness (H-CARE), Universiti Kebangsaan Malaysia, Kuala Lumpur, Malaysia)

12.15 – 12.35

P1

In-Person

Yang Chen

(Singapore General Hospital, Singapore)

"Smart-CGA: Enhancing Response Rates for Pre-Consult Online Questionnaire to Improve Efficiency in Geriatric Outpatient Clinics"

12.15 – 12.35

P2

In-Person

Yatharth Malik

(All India Institute of Medical Sciences, Rishikesh, India)

"Prevalence of Sarcopenia in Community Dwelling Elderly in Northern India- A Cross Sectional Study"

12.15 – 12.35

P3

(Universiti Kebangsaan Malaysia (UKM), Malaysia)

"Feasibility and Preliminary Benefits of a Dayakattai-Based Cognitive Stimulation Technique for Older Adults with Cognitive Impairment"

14.00 - 14.15

B4

Virtual

Nurul Syasya binti Mohd Ridzwan Goh

(Universiti Kebangsaan Malaysia (UKM), Malaysia)

"Longitudinal Association Between Baseline Cognitive Performance and 18-Month MoCA Outcomes in Malaysian Older Adults"

14.15 - 14.30

B5

Virtual

Dr. Monika Kankarwal

(AIIMS Deoghar, India)

"Effectiveness of Need-Based Program on Fall Prevention Behavior and Activities of Daily Living among the Elderly in a Selected Community, New Delhi: A Randomised Control Community Trial"

KEYNOTE FORUM

Thursday, October 22ND 2026 | 14.30 WITA to 15.00 WITA | Intaran Room

14.30 – 15.00

Prof. (Dr.) Prakash Kumar, MOT, PhD

(Principal and Professor Mahatma Gandhi Occupational Therapy College (Mahatma Gandhi University of Medical Sciences & Technology) RIICO Institutional Area, India)

"Assistive Technology Interventions to Promote Comfort, Participation, and Independence in Older Adults"

Professionally, Dr Prakash is an Occupational Therapist and hold a PhD in Geriatric Mental Health from AIIMS, New Delhi. I also did a research-based Master's Program from Trinity College Dublin, Ireland, in Medical Gerontology. Throughout his professional career, focused extensively on geriatric care and the ageing brain, particularly in the area of non-pharmacological interventions for frailty, dementia and mental health. He had the privilege of being invited as a keynote speaker to more than 17 international conferences, including those hosted by the International Association of Gerontology and Geriatrics (IAGG) and the Alzheimer's Society (AAIC). Currently, He serve as the Principal of Mahatma Gandhi Occupational Therapy College in Jaipur, Rajasthan, India. At present, they have a thriving research environment at our institution with 17 PhD scholars, the majority of whom are conducting research in gerontology and ageing. In addition, our postgraduate students are eager to participate and present papers at your esteemed conference. He was previously a member of the Scientific Committee in Silver Age 2023 and 2024, and in both years, more than 10 participants attended this conference from our organization.

15.00–15.30 – Evening Refreshments

15.30–16.00 – Awards, Recognition & Closing Ceremony

**For the
first time in history...**

**“ People aged 60+ now
outnumber children
under five globally. ”**

DAY 02 – FRIDAY, 23RD OCTOBER 2026

POST CONFERENCE TOUR

8:00 AM	Leave Grand Palace Hotel, Sanur
9:30–10:30 AM	Traditional Barong Dance
10:45–11:20 AM	Fine Art Village
11:30–12:15 PM	Batuan Temple
12:45–1:45 PM	Group lunch at Citrus Berry Ubud
1:45–2:45 PM	Ubud Monkey Forest
~3:00 PM	Depart Ubud for Sanur
~4:00 PM	Arrive hotel, traffic permitting

GLOBAL INITIATIVE

Hosted by ICR (USA) · Organized by iConferences

Empowering Women in Research Initiative

The **Women in Research Initiative** is a global programme hosted by the **International Centre for Research (ICR)**, USA and organized by **iConferences** to celebrate, recognize, and empower women researchers worldwide.

Give to Gain

Empowering Women in Research

INTERNATIONAL WOMEN'S DAY 2024
CELEBRATING WOMEN IN RESEARCH

It is not only a matter of equity – it is essential to advancing knowledge, and our perspective, and shaping a more just, sustainable tomorrow.

www.icr-usa.com/womeninresearch

Launched through the successful **International Women's Day 2026** global event, **Empowering Women in Research** is now an annual international event that brings together women researchers to connect, collaborate, and inspire.

As part of the initiative, women participating in **iConferences** are eligible to be considered for recognition in the **ICR Hall of Fame**—a distinguished platform honouring exceptional individuals for their contributions to research, innovation, leadership, and academic excellence.

Empowering Women in Research continues to champion diversity, inspire future generations, and celebrate the remarkable women shaping the future of global research.

2026 Inspiring Story Competition

As part of the celebration, iConferences invited women researchers worldwide to share their inspiring personal stories through an open **Inspiring Story Competition**. The competition received heartfelt submissions highlighting resilience, leadership, perseverance, and the transformative impact of empowering women in research.

From all submissions, two outstanding stories were selected:

Dr. J. Shanmuga Priya

Mahatma Gandhi University of
Medical Sciences & Technology, India

Complimentary Registration — Public Health 2026

Zienab Ahmed

United Arab Emirates University, UAE

Complimentary Registration — EDCON 2026

Could you be the next inspiration?

Could you be our next Inspiration in Research? Women researchers participating in iConferences are eligible to be recognized for their achievements and considered for induction into the prestigious iConferences Hall of Fame

PUBLICATION OPPORTUNITY

Special Issue Publication Opportunity

Applied AI Letters - Wiley Open Access

As part of its commitment to advancing high-quality research and increasing the global visibility of conference publications, **iConferences**, in collaboration with the **International Centre for Research (ICR), USA**, is pleased to offer authors across its conference portfolio the opportunity to submit their work for consideration in a **Special Issue of Applied AI Letters**, published by **Wiley**.

This publication opportunity is open to **eligible authors from all iConferences conferences**, regardless of discipline, whose research demonstrates a meaningful application of **Artificial Intelligence** within their respective fields. Whether in healthcare, education, agriculture, engineering, business, environmental science, social sciences, or other domains, interdisciplinary studies integrating AI are encouraged.

Applied AI Letters is a **peer-reviewed, Scopus-indexed, DOAJ-indexed**, and fully **Open Access** international journal that publishes innovative research highlighting practical applications of Artificial Intelligence across a broad range of disciplines. All manuscripts submitted to the Special Issue will undergo the journal's standard independent peer-review process, and acceptance will be based solely on scientific merit, originality, and relevance to the scope of the journal.

Topics of interest include, but are not limited to

- Responsible and Explainable AI (XAI)
- AI for Healthcare and Public Health
- Ethics, Fairness, and Trustworthy AI
- AI in Education and Learning Technologies
- AI Governance, Policy & Regulatory Frameworks
- AI in Agriculture and Food Systems
- Machine Learning and Deep Learning Applications
- AI for Sustainability and Climate Action
- Natural Language Processing and Computer Vision
- AI in Business, Finance, and Industry
- Intelligent Decision Support Systems
- Human-Centred AI and Emerging Technologies

Authors may submit **original research articles, review papers, case studies, and short communications** that present novel findings, practical innovations, or interdisciplinary approaches involving Artificial Intelligence.

This initiative provides researchers with an opportunity to extend their conference work into a high-impact international publication while contributing to the advancement of responsible and innovative AI research across diverse academic and professional fields.

We encourage all eligible conference participants whose research incorporates Artificial Intelligence to take advantage of this publication opportunity and contribute to this international Special Issue.

Hall of Fame

To celebrate academic excellence and meaningful contributions to our scholarly community, we proudly introduce the 'Hall of Fame' section in our conference programme. This year, we honor our Best Reviewer whose expertise and dedication have elevated the quality of submissions and peer review.

At SilverAge 2026, we are proud to celebrate individuals who go above and beyond to uphold the spirit of academic excellence. One such contributor is Dr. Rajiv Mani Adhikari, who was recognized as the Best Reviewer of this year's conference for her thoughtful evaluations and unwavering commitment to scientific rigor.

BEST REVIEWER 2026

Dr. Rajiv Mani Adhikari
(MBBS, MD (Community Medicine))

I am a community physician with over eight years of experience in health systems strengthening, epidemiology, biostatistics, and medical case management. After completing my MBBS and MD in Community Medicine from Kathmandu University, I have dedicated my career to advancing public health through research, teaching, and program management.

Currently, I serve as Program Manager at the International Alliance of You Foundation Nepal, in collaboration with Civil Service hospital- Kathmandu, where I focus on patient advocacy, health program implementation, and stakeholder collaboration. My research interests include communicable and non-communicable diseases, mental health, injuries, geriatrics and public health emergencies, and ongoing studies, including work in collaboration with Duke University and University of California, USA.

In 2024, I received the Young Scientist Grant Award (2024) from the Nepal Academy of Science and Technology (NAST) and has been actively involved in international conferences, editorial roles, and community health projects. Alongside my professional work, I am actively engaged in capacity-building initiatives, policy development, and knowledge-sharing activities to strengthen public health practices in Nepal and beyond.
